

ad-machina for Meta

A technology for the end-to-end of your digital creative assets

Discovery, consideration and purchase increasingly happened on social. Meta applies AI automation to find your customers.

ad-machina applies AI to automate the process of creating, activating, measuring and optimizing your creatives based on performance.

AI powered content

ad-machina harnesses **Gen AI to craft compelling ads, stories, and reels**, tailored to meet your specific objectives, whatever they may be.

Ads activation aligned with your business goals

Organize your ads based on profit margins, category specifics, or competitor insights, **integrating data from sources like your product catalog or CRM.**

Creatives Performance Based

ad-machina includes an image analyzer that **assesses creative performance, identifying and applying the most effective visual elements.**

Global scale for all your markets

ad-machina **produces creatives at scale and supports multiple languages**, translating ad elements such as CTAs, copy, pricing, titles, and messages.
